# ERADICATE

SNAIL & SLUG KILLER

*...kills snails & slugs dead!*

**WIN 2 nights**  
at Crown Metropol  
Perth & \$500  
spending  
money!

See back  
for details.

Scientifically Proven  
Safe For Pets, Wildlife & Waterways  
No Withholding Periods  
Effective Against Juvenile Snails  
Great Value

Got questions about your snail & slug problems?

Come and meet us...

While we are touring Southern WA.

See inside for dates and locations.

# Why Use ERADICATE Snail & Slug Killer...

ERADICATE has been proven to outperform competitors in more than 90 scientific trials.

- ✓ Safe for pets, wildlife & waterways
- ✓ No withholding periods
- ✓ Effective against juvenile snails
- ✓ Offers great value for money

ERADICATE is an iron EDTA complex bait that only targets snails and slugs.

It outperforms all other products on the Australian market, including on juvenile snails and slugs, and all those commonly found in Australia. ERADICATE will not kill your pets, native animals or birds.

If ERADICATE gets wet, it will not lose its effectiveness, and won't poison your waterways. Snails become inactive at times

depending on the climate conditions. You will know when they become active again, and this is when you should apply your bait.

Over the next few days, the snails and slugs will eat the bait and you will notice it disappearing. Other less effective baits on the market, may remain for weeks, proving that the snail has not eaten it. Whether competitor products are cheaper, or more expensive, ERADICATE considerably outperforms, giving you the

highest protection for your crops, and has proven itself as the best value for money product on the market.

Application rates vary between 5-15kg p/ha depending on the level of infestation. A light infestation is considered to be approximately 10-20 snails per square metre, whereas a heavy infestation can be as many as 1000 + snails per square metre.

## Need Some Expert Advice to Deal With Your Snail & Slug Problems?...

Come & meet Dr Colin Young and the team behind ERADICATE, touring southern WA in early February.

Dr Colin Young is the founder of ERADICATE. A British-trained chemist, he was formerly the Professor of Chemistry at the University of Melbourne. We will be visiting the following locations to speak with farmers about the problems that they are facing and to answer any questions they have about the various approaches available.

2nd Feb	Cowaramup Agencies - Cowaramup
3rd Feb	Landmark Manjimup - Manjimup
4th Feb	Landmark Albany - Albany
5th Feb	Ravensthorpe Agencies - Ravensthorpe
6th Feb	Farm & General - Esperance

Ask in store for exact times and locations.

# ERADICATE HAS SO MANY ADVANTAGES...

- ✓ The active ingredient in ERADICATE is an **ALLOWABLE FOOD INPUT**
- ✓ The pellet size is optimised to **PROVIDE 40% MORE BAITING POINTS** than Multiguard to make it more effective on crops
- ✓ **NON TOXIC TO PETS, NATIVE FAUNA AND OTHER ANIMALS**, if used as directed
- ✓ **ERADICATE IS RAIN FAST**, remaining active even when its wet. The active ingredient in ERADICATE slowly degrades over several weeks compared to metaldehyde which degrades rapidly
- ✓ **IN OVER 90 SCIENTIFIC TRIALS ERADICATE OUTPERFORMED ITS COMPETITORS**
- ✓ **DESIGNED FOR THE HARSH AUSTRALIAN CLIMATE**, in typical Australian conditions ERADICATE outperforms methiocarb pellets
- ✓ Feel good knowing that the active ingredient is **ENVIRONMENTALLY FRIENDLY** and does not accumulate in the environment
- ✓ There is **NO WITHHOLDING PERIOD**. Unlike metaldehyde, ERADICATE can be used right up to harvest
- ✓ **ERADICATE CAN BE USED NEAR WATERWAYS**, and does not pose a threat to surface or drinking water
- ✓ In all trials ERADICATE has proven to be **HIGHLY EFFECTIVE ON JUVENILE SNAILS**
- ✓ **ERADICATE CONTAINS A CHILD TASTE DETERRENT** (as required by the APVMA)
- ✓ ERADICATE is proud to be **100% AUSTRALIAN OWNED & MADE**
- ✓ ERADICATE uses **PATENTED "MOLECULAR WRAP" TECHNOLOGY** and is manufactured by a modified "dry" process
- ✓ **ERADICATE KILLS WOODLICE**
- ✓ After eating ERADICATE snails and slugs stop feeding but do not die immediately. They move away from the bait so there is **NO CROWDING**.

## Available sizes...

25kg Bags	\$95 + gst RRP
500kg Bulka Bag	\$1650 + gst RRP
1 Tonne Bulka Bag	\$3150 + gst RRP
